Advance CARE was created with *you* in mind.

BRINGING QUALITY HEALTH CARE
to your home is our business, and we are
excited about it!

continue in the home, where individuals
and families learn to promote health on a
day-to-day basis.

Highly skilled, caring nurses and therapists
from Advance Care provide the medical
care ordered by your doctor, and help teach
what is needed to manage health care in the
comfort of your home. This may include:

ASSESSING disease process, baseline
knowledge, and after conferring with your
physician, developing a plan of care.

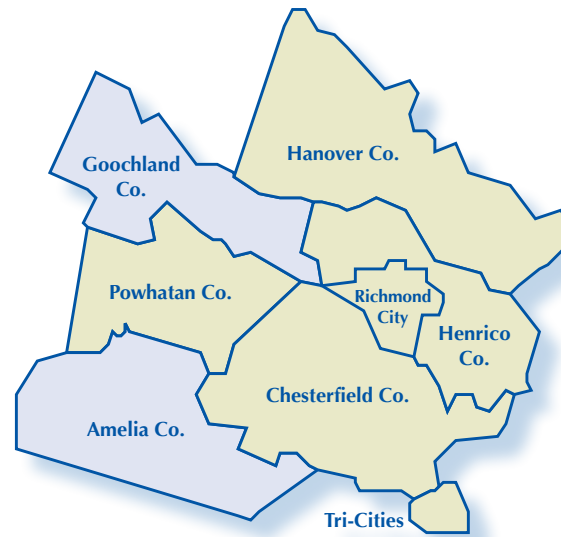

TEACHING disease management, new
medication adherence, new skills such
as tube feeding and colostomy care,
developing a rehabilitation and safety
program for home.

PERFORMING technical skills such as
wound care and IV therapy.
